Planner FM music and artwork consent

One form per adult. Review the complete final materials first, tick only the permissions you grant, and return both pages with the approval pack. Keep a copy.

Person releasing the music and data controller Karl Yoxall

1 Your details

Your full name

Your email or other contact

Name or nickname that may appear publicly

2 The specific material you are approving

Track titles covered by this consent

Approval pack reference

Pack date DD/MM/YYYY

Exact audio versions, lyric sheets and artwork files or dated links

Distributor and extra platforms Spotify and yoxall.net are already included

Karl must complete these details before signature and attach the final material, any restrictions, relevant service privacy notices and any applicable overseas-transfer information. Identify any AI image tools used on your photos in that pack. A changing website link alone is not a record of the version approved.

3 Your publication choices

The selected permissions allow public, worldwide streaming, downloads and sale on Spotify, yoxall.net and only the other services named above. The material may earn income.

☐ **Name and references** I permit my approved name or nickname and the references to me in the listed track titles, audio and lyric sheets.

☐ **Approved artwork** I permit my likeness in the listed final artwork, including the AI-generated or digitally altered depiction I have reviewed.

☐ **Optional music promotion** I permit excerpts of the approved material, with my approved name or likeness, on yoxall.net and only the social accounts listed below.

Social accounts or links covered by optional promotion Write None if not agreed

Leave a box unticked to withhold that permission. At least one of the first two choices must be selected. Permission is limited by page 2 and any written restrictions.

Terms and confirmation

These terms apply only to the choices and versions recorded on page 1. Read both pages before signing.

4 What this permission covers

The songs use AI music tools including Suno. Artwork may use AI or digital editing. I have reviewed the relevant final audio, lyrics and images, including swearing, adult humour and any teasing about me. Synthetic vocals are not evidence that I sang or spoke the words. I give Karl non-exclusive permission for the selected uses until withdrawn as below. Technical resizing, cropping and file conversion are allowed only if they do not change the meaning or my depiction. New tracks, changed personal references or different depictions need fresh approval.

This does not authorise cloning my voice, creating new AI depictions of me, training a face or voice model, unrelated advertising, or disclosure of real sensitive personal details. I sign only for myself, not for my employer or anyone else.

5 Payment and other rights

Permission is unpaid. No fee or share of release income is due merely because I am named, depicted or give this consent; income payable to Karl stays with Karl. This form does not transfer copyright, remove any existing songwriting or performer rights, or override another agreement. Karl must separately clear the rights in source photos, music and other material. My likeness approval is not a photographer copyright licence.

6 Changing your mind

I can refuse or withdraw any consent without penalty by emailing karl@yoxall.net, replying through the channel used to arrange this form, or telling Karl directly. Karl will stop new uses, remove affected material he controls and request platform removal without undue delay. Lawful earlier use is not made unlawful by withdrawal. Copies already downloaded, shared or cached by others may not be fully recoverable. This is not an irrevocable waiver of rights.

7 How your information is used

Karl uses my contact details, choices, signature and the approved personal references or images to record permission, publish the selected material and handle requests. Publication relies on my consent. Spotify, the named distributor and any other named platforms receive the approved release material and may process it overseas; the pack identifies the relevant notices and transfer information. My signature and private contact details are not for public release.

Karl keeps a secure permission record while material is used and for up to six years afterwards, or longer for an active legal claim, to document rights and handle disputes on the basis of legitimate interests. Unneeded source photos and contact copies should be deleted sooner. I can request access, correction, erasure, restriction or portability where applicable. **I can object to the keeping of records based on legitimate interests.** I can complain to the Information Commissioner at ico.org.uk/make-a-complaint.

Restrictions or changes required before release Write None if there are none

☐ I am 18 or over, have read both pages and the approval pack, and freely give only the permissions I selected. Any restrictions must be met before release. My legal rights remain protected.
